

All-Island Climate and Biodiversity Research Network

Who are AICBRN?

We are a member-led community tackling the climate and biodiversity crises and ensuring a just transition over the whole island of Ireland.

Are you active in research tackling the climate and biodiversity crises? Join 390+ researchers across the island of Ireland in building the evidence, policy connections and funding bids that will drive a just transition.

390+

members across the island of Ireland, and growing since AICBRN was founded in 2019.

AICBRN's mission: *build the capacity needed across the island for the fundamental research that will underpin the transformation of our economy, society, governance, and environment needed to tackle the climate and biodiversity crises with effective, just and evidence-based solutions.*

Benefits of membership

Raise your profile

AICBRN is a platform to showcase your research and work on an all-island basis.

Access to a large and increasing database of information on experts, stakeholders and funding partners.

Shape policy

Contribute directly to the evidence base behind policy formation, to public good research, policy responses and [green papers](#).

Influence funding priorities

Help set future all-island research and funding agendas.

Opportunities to join AICBRN working groups.

Collaborative funding

Be involved in collaborative all-island funding applications as PIs, Co-PIs and funded investigators.

AICBRN members have co-created successful bids, including [Co-Centre+](#).

Peer network

Affiliation with and access to an all-island network of researchers, institutions and organisations.

Build your multi-trans-interdisciplinary networks across career stages.

Get involved your way

AICBRN is a member-led network so plug in as much or as little as suits you. From joining a working group to shaping our next big idea – got a suggestion? We want to hear it.

Communicate

Access monthly online member-led AICBRN webinars, facilitating learning, discussion and opportunities for interdisciplinary collaboration.

Receive and contribute to regular communications on climate and biodiversity events, research, policy and relevant funding opportunities.

Eligible to join?

The Network membership is mainly, but not only, academic researchers with others from public bodies, eNGOs, etc. All career stages are welcome, from early career researchers, through to mid- and senior academics. With an already wide cross-sectoral representation, the Network welcomes increased diversity.
